## Experience

### Borda Technology | Part-time Software Engineer

Oct 2020 – Present, Istanbul

- Stack: .Net Core, Flutter, React.js, Docker, Redis, Postgresql
- Working as a full-stack developer, I develop microservices, webapp and a mobile application for an IoT system.

### Borda Technology | Software Engineering Intern

Jun 2020 – Sep 2020, Istanbul

- Stack: Amazon Web Services (Dynamodb, Api Gateway, AWS Cognito, Lambda), React.js, Redux, Thunk, SCSS
- Worked as a full-stack developer, developed a project to maintain a healthy COVID-19 office life with IoT.
- Built a backend using AWS to establish a communication between IoT devices and API end points to give useful insights.
- Built a frontend using React.js.

### Koc University | Undergraduate Teaching Assistant

Jun 2020 – Present, Istanbul

- I was an assistant for the course UNIV199 - Introduction to Programming with Python.
- I helped students with their problems in weekly sessions and also grade homework.

### DAL Engineering Group | Frontend Developer Intern

Aug 2019 - Sep 2019, Istanbul

- Stack: React.js, Redux
- I worked on the development of a webapp using React.js.

### CHAKSY | Co-founder

Mar 2017 – Present, Istanbul

- CHAKSY is a street-style based clothing brand established in Istanbul. The brand mainly caters to street fashion and youth culture, with the aim of designing stylish clothes.

## Hobbies / Interests

- Music, Cooking, Gaming, Fitness

## Languages

- Turkish (Native), English (Professional Working Proficiency)

## Education

### Koc University | Department of Computer Engineering

2017-2022 – Istanbul

- Academic Level: Junior
- Current GPA: 3.2/4.0
- Activities: IEEE Member, DJ at college radio.

## Projects

### Codenames

- Codenames is a board game for 4–8 players. Two teams compete by each having a "spymaster" give one-word clues that can point to multiple words on the board. The other players on the team attempt to guess their team's words while avoiding the words of the other team.
- Stack: Spring Boot, React.js, Websockets, Redux, Thunk, SCSS
- <https://github.com/a-Ksy/codenames-clone>

### KuGPA

- A web app for students in our college to easily calculate their SPA and GPA by adding/removing courses.
- Stack: Flask, React.js
- <https://kugpa.herokuapp.com>

### laborodor

- A web-app tool for you to work on your daily tasks within a given time period inspired by the Pomodoro technique.
- Stack: React.js
- <https://a-ksy.github.io/laborodor>
